EDUCATION

Technische Hochschule Bingen

Master's, Computer Science

September 2023 - March 2026

Savitribai Phule Pune University

Bachelor's, Computer Science

July 2017 - May 2021

GPA: 8.03

PROFESSIONAL EXPERIENCE

SAP

Working Student Java Developer

Walldorf, HE, Germany

August 2024 - Present

- Contributed to developing an Augmented CMS Tool as part of a large-scale content management solutions project.
- Enhanced user lookup API efficiency, achieving a measurable reduction in latency.
- Wrote and optimized JUnit test cases and integration tests, increasing overall code coverage by 15%.
- Collaborated with senior developers to implement and improve user stories in an Agile environment, ensuring timely delivery of sprint goals.
- Participated in developing scalable backend solutions, following best practices in Java development.

EnterpriseMindFactory GmbH

Working Student (Java Developer)

Mainz, Germany

October 2023 - Present

- Independently developed different product modules from scratch. Built the backend in Spring Boot, leveraging AWS keyspaces for Cassandra-based data storage.
- Collaborated with senior developers to implement Spring Security with the Keycloak authentication provider.
- Developed RESTful APIs while learning and structuring efficient backend architecture.
- Created data export functionality to Excel sheets.
- Developed APIs for file upload and download to AWS S3, optimizing storage processes.

T-systems ICT Pvt Ltd

Java Backend Developer

Pune, Maharashtra, India

August 2021 - September 2023

- Contributed to agile development, understanding requirements, and implementing solutions.
- Built RESTful APIs for 3 major Spring boot microservices and 1 NestJS microservice, enabling seamless communication.
- Proactively identified and tackled 30+ production-critical and high-severity bugs, ensuring system stability and uptime.
- Owned and maintained the USER API microservice, demonstrating initiative and accountability.
- Redesigned database model and data storage for the USER API microservice, leading to a 50% reduction in duplicate records in the PostgreSQL database, improving storage efficiency and query performance.
- Actively participated in Spring demos, ensuring timely delivery to clients, consistently achieving a 4+ rating out of 5.
- Awarded RnR (recognition & reward) for outstanding contributions to the DDPS project.

PROJECTS & OUTSIDE EXPERIENCE

Data Driven Pricing System

Backend Developer

Pune, Maharashtra, India

February 2022 - September 2023

- A German-based client substitute system development of a 15-year-old pricing system landscape that cannot handle data algorithms, AI analytics, and logic.
- Backend- Java, SpringBoot, PostgreSQL, MongoDB, NestJS, Docker, Helm charts, and Frontend- ReactJS.

SKILLS

Skills: Docker, JavaScript, Git, Java, MongoDB, RabbitMQ, Python, TypeScript, Cassandra, Nest.js, REST APIs, Kubernetes, Mongoose, Node.js, Spring Boot, Postgres, Microservices

Languages: German, Hindi, Marathi
